## OEKO-TEX<sup>®</sup> STANDARD 100

OEKO-TEX<sup>®</sup> STANDARD 100 is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.

### What does the label mean?

If a textile article carries the STANDARD 100 label, you can be certain that every component of this article, i.e. every thread, button and other accessories, has been tested for harmful substances and that the article therefore is harmless for human health. The test is conducted by our independent OEKO-TEX<sup>®</sup> partner institutes on the basis of our extensive OEKO-TEX<sup>®</sup> criteria catalog.

In the test they take into account numerous regulated and non-regulated substances, which may be harmful to human health. In many cases the limit values for the STANDARD 100 go beyond national and international requirements.
